480 South McPhedran Road, Campbell River, BC V9W5K5 H: 250-8501525 [stufeltham76@hotmail.com](mailto:stufeltham76@hotmail.com)

## Professional Summary

I have worked in the commercial diving industry for the better part of 17 years with more than 12 years of management experience. My position has helped me develop strong analytical and critical thinking skills to solve complex problems and oversee the daily operations of a commercial dive crew in remote coastal locations, the emphasis being safety and getting the job done right the first time. I have drive and determination to better myself, my co-workers and my employer.

Over the last 6 years, I have been a member of our local volunteer fire department, achieving full NFPA qualification as a professional fire fighter. I partake in numerous courses and training opportunities as they arise and am currently the equipment officer, assistant training officer and sitting president of our firefighters association.

Specifically, I am focused on a new career within the realms of fire rescue and health and safety. With my experience as a diver, manager, and now firefighter, I am confident that my skills will be an asset to your company.

## Core Qualifications

- Natural leader, organized and efficient, motivated team player, extensive experience with supervision and training, managing large crews and projects, calm under pressure

## Experience

Commercial Diving Supervisor  
Allpen Diving Ltd.

Current  
Campbell River, BC

I oversee the day to day operation of a 3-4 person dive crew servicing aquaculture sites in various coastal locations. On occasion, we operate in camp settings and in crews of up to 12 divers, depending on the project. I am responsible for all aspects of the job; logistics and planning, dive plans, risk assessments, client communications, vessel and equipment operation, health and safety, regulatory compliance, staff training, documentation, maintenance, and diving myself as well. Our working environment changes constantly and requires attention to detail and a keen sense of situational awareness.

## Education

Firefighter I&II/NFPA 1001 <i>JIBC</i>	2010
